GOVERNMENT OF INDIA RECOGNIZED PARTNER | EUROPEAN PUBLIC UNIVERSITIES

About PsyEdX & IEAP-BS

"PsyEdX is not just a program — it is a movement to bring Indian psychology graduates to the global forefront, blending the rigor of European academic standards with the richness of Indian clinical contexts."

— PsyEdX Academic Council

Our Mission

PsyEdX is an international education and training initiative designed to bridge Indian psychology education with European academic standards. Operating under the IEAP-BS framework, we empower the next generation of psychologists through applied learning, real EU-level case studies, and globally recognized certification.

Students don't just learn theory — they work on real EU-level case studies, practice under dual supervision, and graduate with internationally portable credentials.

Hybrid Excellence

The program combines rigorous **Live Meetings** with **Applied Learning Modules**. Our hybrid model ensures students receive the best of both worlds: the flexibility of online education and the depth of supervised clinical practice.

With a **Fully Remote Option Available**, students from anywhere in India and beyond can access world-class psychology education at their own pace.

 60% Hands-on Practice	7 Modules Per Track	Dual Mentorship Model	 ECTS Credits (EU Recognized)	 Live Industry Projects

RCI Compliant
EU EACLIPT Aligned
Govt. of India Partner

Flexible Learning Model

PsyEdX is designed for modern psychology students who need flexibility without compromising quality. Our multi-modal learning system adapts to your schedule and career goals.

Monthly / 3 / 6 / 12 Months Certification

Choose your commitment level. Whether you want a short certificate or a comprehensive 1-year diploma, we have a track for you.

Hour-Based Certification

Earn certificates based on verified learning hours. Perfect for students who want to build their portfolio incrementally with documented proof.

Internship + Certifications Combo

Combine your supervised internship placement with professional certifications for maximum credential value and employability.

Self-Paced + Live Hybrid Model

Study theory at your own pace with 1-year access to all study materials, complemented by scheduled live sessions with mentors.

1-Year Access to All Study Material

Unlimited access to comprehensive study handbooks, case studies, worksheets, clinical logbooks, and EU-level case libraries for 12 months.

Fully Remote Option Available

100% online delivery with live supervision via video conferencing. No location barrier — study from anywhere in India or abroad.
